

ACROPLAY

WELCOM TO
MODULAR WORLD

ABOUT US

在Acroplay，我们不仅仅是家具制造商；

我们是变革空间的创造者。

我们了解环境的力量——它如何塑造体验、影响行为并推动成功。

这就是为什么我们热衷于打造模块化家具解决方案，以重新构想空间并提升体验。

At Acroplay, we're not just furniture manufacturers; we're creators of transformative spaces. We understand the power of environment — how it shapes experiences, influences behaviors, and drives success. That's why we're passionate about crafting modular furniture solutions that reimagine spaces and elevate experiences.

OUR MISSION

我们的使命是彻底改变您对家具的看法。

通过利用模块化、创新和卓越设计的原则，我们使企业能够释放其全部潜力。

无论您是一家新兴的初创公司、一家蓬勃发展的咖啡店，还是一个繁华的办公室，

Acroplay 都能为您的成长提供动力并激发您的愿景。

We're on a mission to revolutionize the way you think about furniture. By harnessing the principles of modularity, innovation, and design excellence, we empower businesses to unleash their full potential. Whether you're a burgeoning startup, a thriving coffee shop, or a bustling office, Acroplay is here to fuel your growth and inspire your vision.

WHAT SETS US APART

Innovation

我们走在模块化家具设计的最前沿，不断突破界限，挑战传统。我们的解决方案不仅仅是功能性的；它们是重新定义空间利用率的创新声明。

We're at the forefront of modular furniture design, constantly pushing boundaries and challenging conventions. Our solutions are not just functional; they're innovative statements that redefine space utilization.

Quality

我们创造的每一件家具都证明了对质量的承诺。从最好的材料到对细节的一丝不苟，我们确保每件 **Acroplay** 产品都符合耐用性和美学的最高标准。

Every piece of furniture we create is a testament to our commitment to quality. From the finest materials to meticulous attention to detail, we ensure that each Acroplay product meets the highest standards of durability and aesthetics.

Versatility

一种尺寸并不适合所有人，您的家具也不应该。对于**Acroplay**，多功能性是关键。我们的模块化组件可以混合、匹配和重新配置，以适应任何空间或需求，让您能够灵活地创建激发灵感的环境。

One size doesn't fit all, and neither should your furniture. With Acroplay, versatility is key. Our modular components can be mixed, matched, and reconfigured to adapt to any space or need, giving you the flexibility to create environments that inspire.

“Functional is better than beautiful
because
what works well endures over time”.

-----Ray Eames

LESS IS MORE

受“形式服从功能”精神的启发，**Acroplay**追求简单性和功能性。这使我们能够通过剥离不必要的装饰来专注于对象的核心目的，**从而创建适合各种预算限制的更平衡和功能性的设计。**

Inspired by the ethos of “Form follows function”, we at Acroplay embrace the pursuit of simplicity and functionality. This allows us to focus solely on the core purpose of an object by stripping unnecessary ornamentation, creating a more balanced and functional design that fits within various budgetary constraints.

通过非物质化、功能性、秩序性、精确性和手段经济性，我们努力创造真正体现简单性的产品。在**Acroplay**，我们将这些原则融入到我们的设计中，制作简单而精致的产品。我们的目标是提供优质的解决方案，**不仅改善日常生活，而且促进负责任和可持续的生活。**

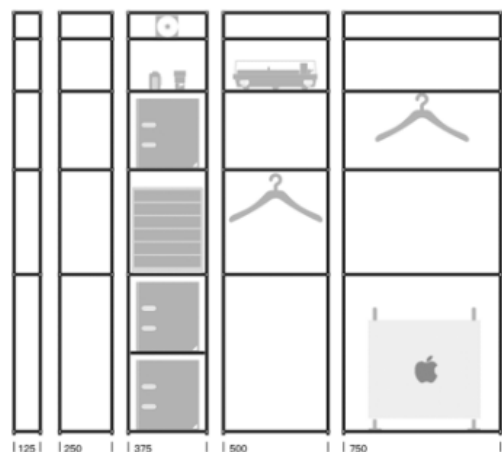

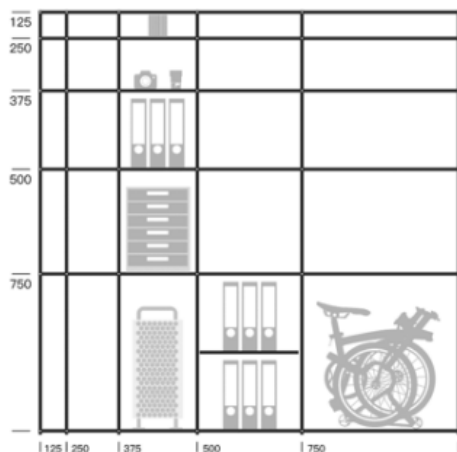

Through dematerialization, functionality, order, precision, and economy of means, we strive to create products that embody simplicity in its truest sense. At Acroplay, we channel these principles into our designs, crafting products that are simple yet refined. Our goal is to offer quality solutions that not only enhance everyday life but also promote responsible and sustainable living.”

MODULAR FRAMEWORK

Adaptable Solutions for Every Space

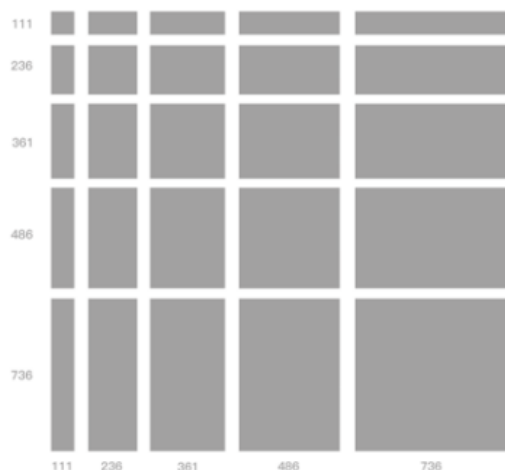

The system grid

System widths & heights (MM)

The panel modules

BASIC MODULES (MM)

“Acroplay” 系统是基于125x125毫米网格开发的模块化框架系统，125mm及它的倍数——被用于日常生活的许多领域（例如1x125 mm=扫地机器人通行高度，3x125 mm=文件夹摆放高度，6x125 mm=桌子的高度），750x3mm=2250mm为标准板材及展示墙面高度。

The Acroplay system is a modular framework developed based on a 125x125 millimeter grid, which is commonly used in various everyday applications (for example, 1x125 mm for robotic vacuum clearance height, 3x125 mm for folder storage height, 6x125 mm for table height), with 750x3mm=2250mm as the standard panel size and display wall height.

结合使用需求和人体工程学，不同规格的框架以及面板模块可以组合成具有高度适应性、**可广泛适用于不同场景的展示道具或空间元素。**

Combining usage requirements and ergonomics, different sizes of frames and panel modules can be combined to create display props or spatial elements with high adaptability, suitable for a wide range of scenarios.

CORE MODULARITY PARTS

“Acroplay” 模块化系统的核心是由16mmx16mm的铝立方体与分段式连接件的组合，通过磁吸和不同长度的14mm铝杆相结合，**构建成不同规格的框架结构。**

再结合不同的模块（面板、开门、翻门、移门、层/隔板，照明系统集成面板、画面，灯箱等）与相应的五金/配件，即可组成**各种功能的展示道具或空间结构。**

根据静力学原理，未结合面板的框架可使用**对角线斜拉进一步增强结构的稳定性。**

Acroplay's modular system utilizes 16mmx16mm aluminum cubes and segmented connectors, complemented by 14mm aluminum rods and magnetic coupling for flexible framework assembly.

Enhance your designs by incorporating various modules such as panels, doors, shelves, lighting panels, and accessories, allowing for the creation of functional display props or spatial structures. Strengthen framework stability with diagonal bracing.
